CAROL MARSHMAN
studio 3

Carol has lived in the beautiful city of Wollongong for the past 40 years. This spectacular location where the mountain meets the sea influences her unique and individual fashion jewellery. Foremost is her philosophy that unique jewellery should be affordable for everyone. It is this belief that led her into the amazing world of 'wearable art' fashion jewellery. She is inspired by her location and works hand-in-hand with nature inspired designs. Carol sources handmade lampwork glass beads from local artisans. Her jewellery also features, semi-precious gemstones and freshwater pearls.

If you love your jewellery personalised through layering with sophistication and versatility, then Carol's distinctive jewellery is for you. Her uniquely designed statement one-of-a-kind jewellery encompasses a variety of techniques, including knotting, chain maille and wire work. Her business CREATZ4U is located in Red Point Arts Studio 3 at The Wentworth
