KERRY BUTT
ICAN@7

Kerry Butt has been knitting since she was 10 years old and as a left-hander had to improvise when learning from her talented grandmothers.

After leaving school, she trained as a Registered Nurse, and spent many night shifts knitting the night away. In her 30s she was almost finished her commercial needlecraft certificate when her daughter arrived. With her active toddler at her feet, Kerry taught herself to spin wool, and later joined Wollongong Spinners and Weavers, where she explored a whole raft of new wool and craft techniques for the next three decades.

During this time, Kerry also learned to crochet and she was 'hooked'! These days, she's addicted to yarn, yarn crafts and yarn holidays, and specialises in spinning, weaving and dyeing her own fibre, then using it to create amazing clothing and homewares.
