LINDA BROWN
studio 4

The Landscape

Experimental watercolour and mixed media artist Linda Brown captures the magic of nature and the tangles of the Australian bush in her own atmospheric style, using painterly textures in her backgrounds, stretching the boundaries, allowing watercolours to gently mix and mingle on the surface, then teasing the pigment with her brushes, creating a jewel like vision of nature itself.

Nature in her work

Linda also works with nature using local leaves to eco print on silk scarves paper and clothing.

Fibre

Rustic and beautifully sculptured felt pieces are created in the studio from merino and alpaca fleece.

Sharing

Linda has an established reputation as an enthusiastic and inspiring teacher, teaching weekly classes and workshops in watercolour and mixed media.
